THE IDEA

What do you see?

Curves? Circles? Waves?

Look again: every line on this page is **straight**.
The curves are made by your brain.

So – what is reality?

And if so much of what we perceive is illusion –
might we also have the power to change it?

ABOUT THE ARTIST

Florian Görlitz

Kinetic artist · Stage designer · Festival founder
Studio: Motionlab.Berlin

His curiosity about the geometry of nature led him to forms, patterns and mechanical systems where structure and dynamics merge.

Travels through India and a time living alone in a forest hut shaped his artistic language. His first large works quickly found their place in Berlin's club and festival scene – and soon led to invitations around the world, from Ibiza, Madrid and Tulum to Burning Man and Boom Festival.

He sees illusion not as deception, but as an invitation to shift perspective. With precise mechanics, light and hypnotic patterns he builds installations that change how we see.

FlowMotion, the kinetic shadow lamp

Five fields. One motor.

Like gears in one of my machines, every field drives the next: the festivals open the doors, the stages fund the research, the research becomes art, the art goes on tour – and ends up in your living room.

01 Own Events

2Takt Festival · Lichtkunstfestival · Beyond the Mountain

Not only the stage – the whole world around it.

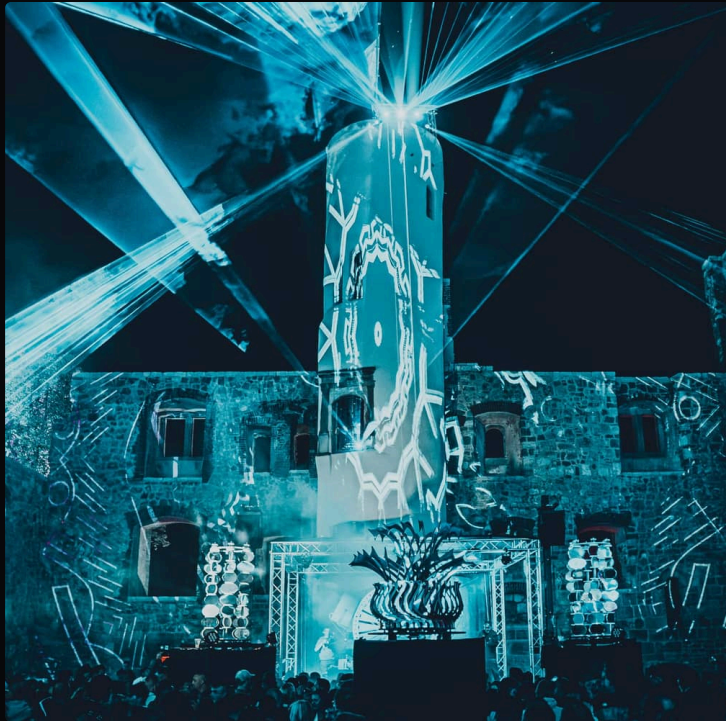

Florian co-founded three festivals. He knows both sides: what an artist needs, and what an organiser has to deliver.

OWN FESTIVAL · GERMANY

2Takt Festival

Heidenheim · every year since 2016 · co-founded by Florian Görlitz

Founded with his best friends, for the region and its families – the goal was to give young artists and new talents a stage. What remained is a cultural movement for Heidenheim, crowned every year by a main stage built as one giant kinetic machine.

OWN FESTIVAL · GERMANY

Lichtkunstfestival

Heidenheim · 2024 · 2025 · 2026 · ~16,000 guests

Magic in the castle, for young and old: ancient walls shine in a new light through immersive kinetic art – The Portal, The Crown, The Wheel and many more pieces in fog, lasers and movement.

OWN FESTIVAL · SOUTH AFRICA

Beyond the Mountain

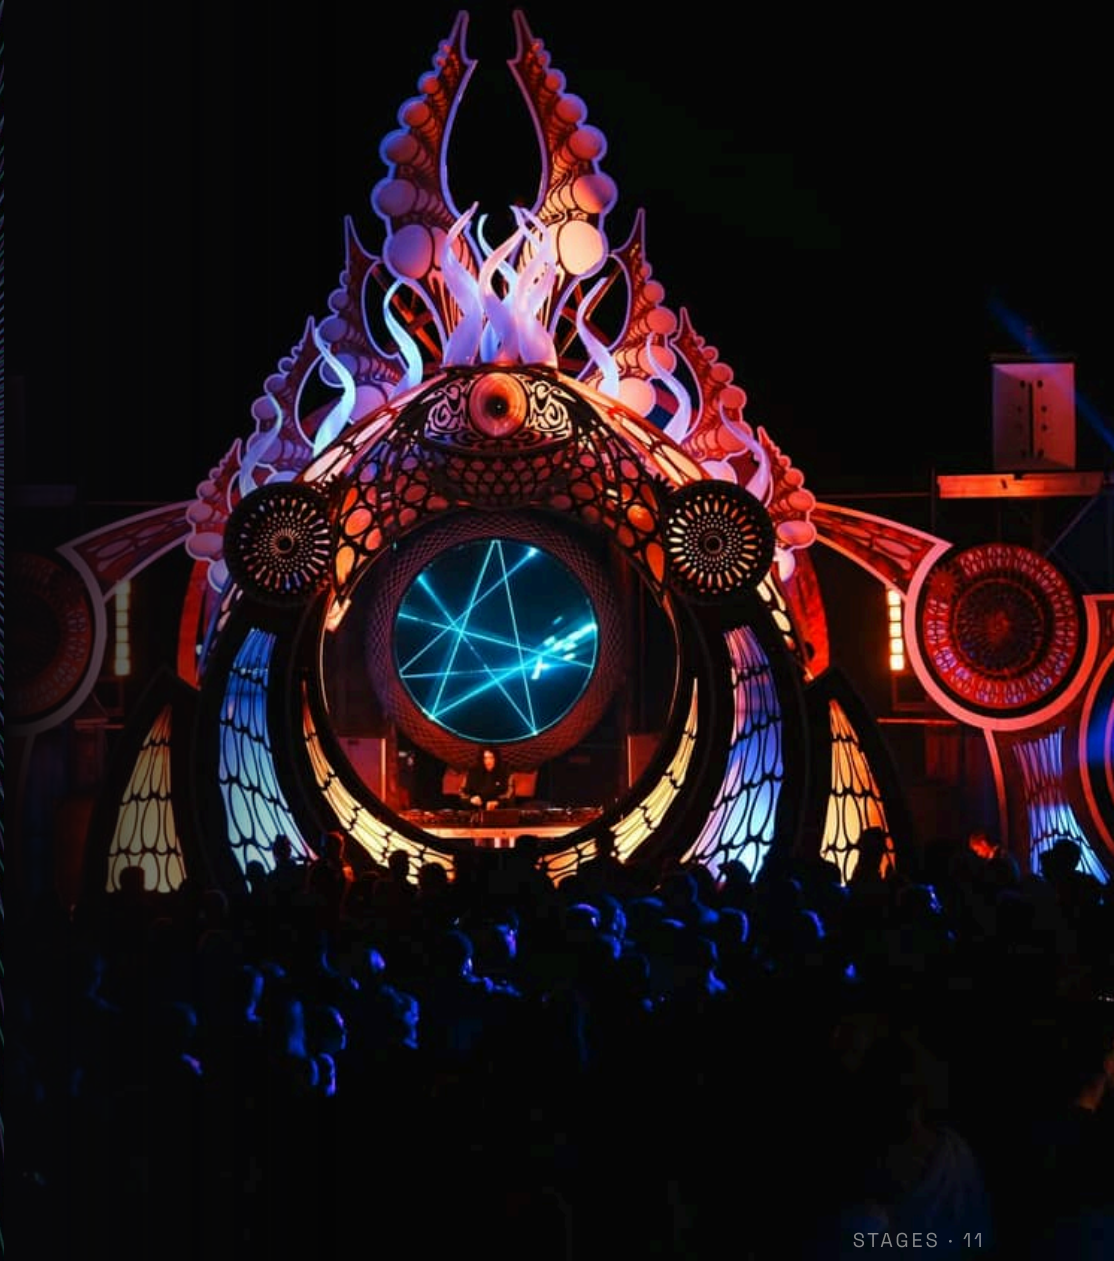

2024 · 2025 · 2026 · co-founded by Florian Görlitz

Built around humanity's most important ritual: opening a new chapter. Every year one big ritual – an event with depth, meaning and a storyline. Two stages: the Mothership, a glowing kinetic sculpture, and the wooden Gaia's Garden.

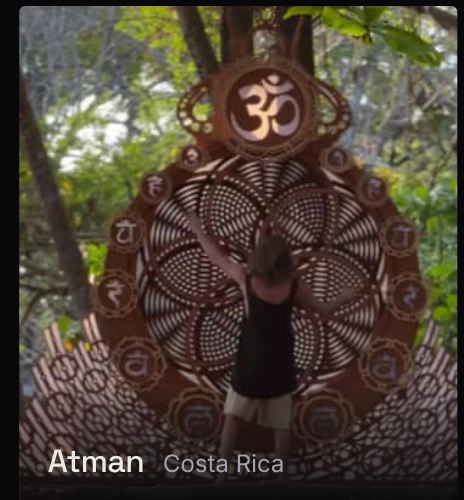

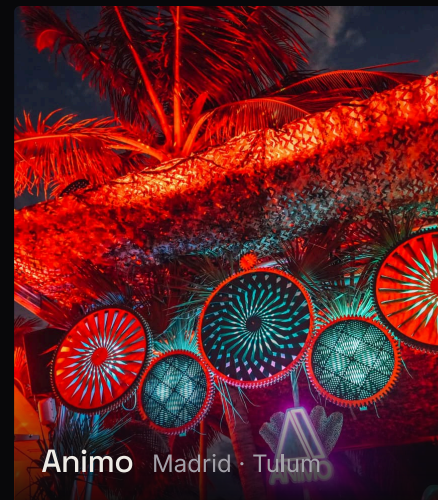

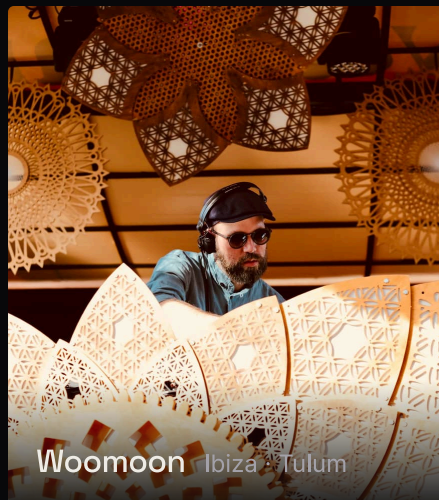

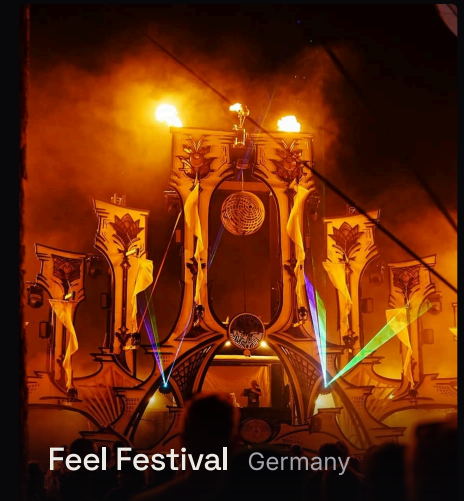

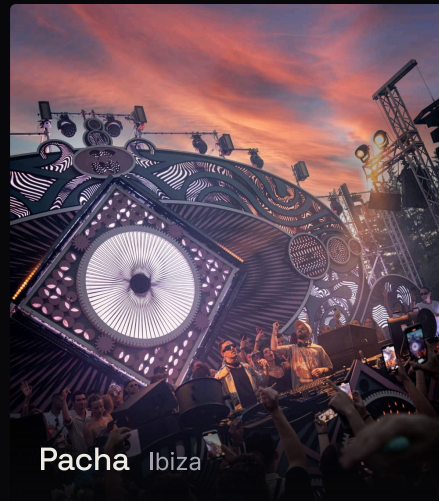

02 Stages

Boom Festival · Pacha · Elrow · Delirium · Feel Festival · Burning Man ·
Woomoon · Animo · etc.

From the warehouse to the jungle to the beach.

ALSO Modem – Croatia · Labyrinto – Costa Rica · Monolink · Sundream – Tulum · El Baile · El Cielo – Ibiza · Griessmühle · Alte Münze – Berlin · etc.

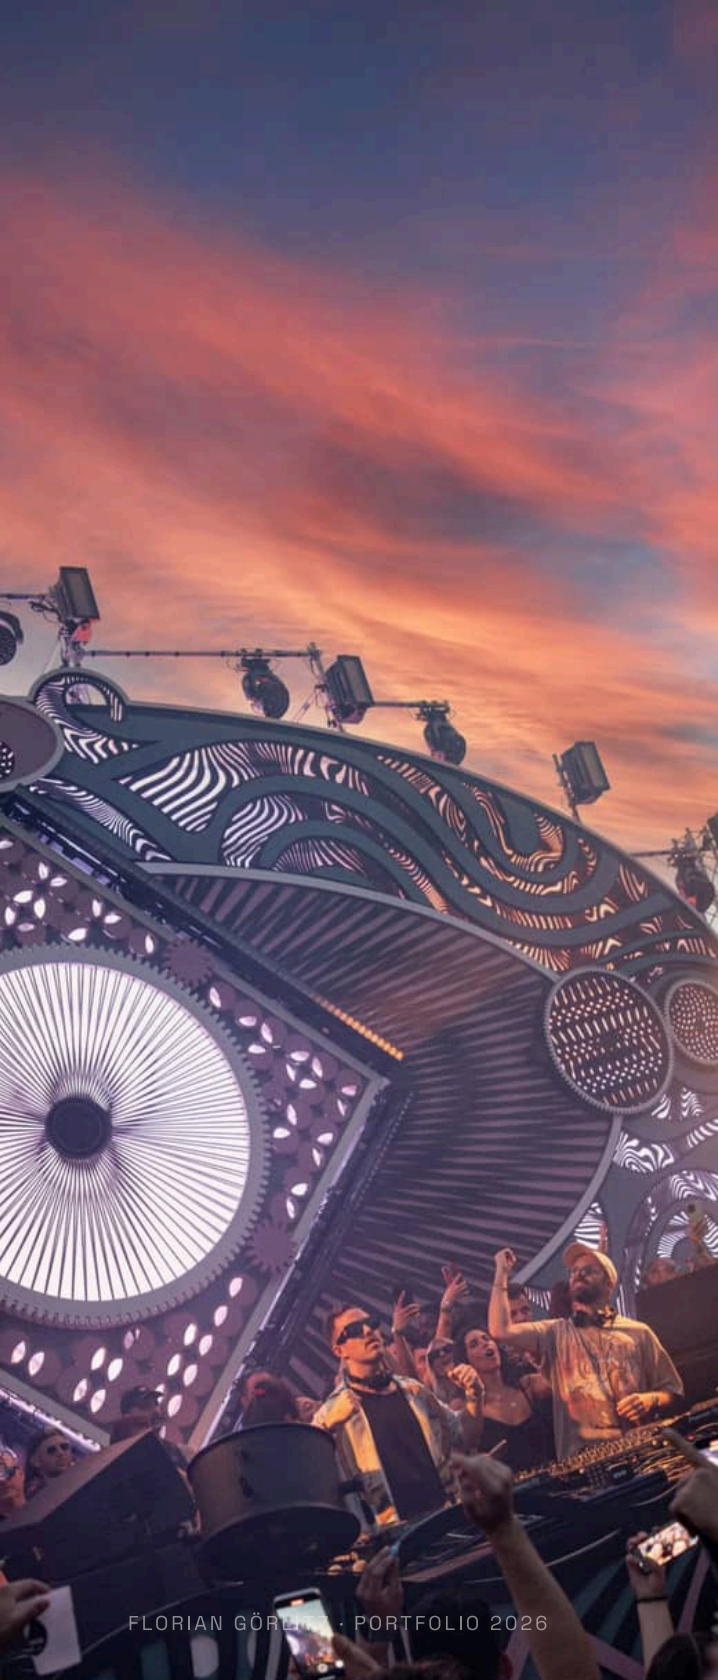

2025 · PORTUGAL

Boom Festival · Dance Temple

Idanha-a-Nova, Portugal · 2025

Florian designed the look of the Dance Temple – the heart of one of the world's most iconic transformational festivals. Sculptural columns, light and movement above tens of thousands of dancers, from blue hour deep into the night.

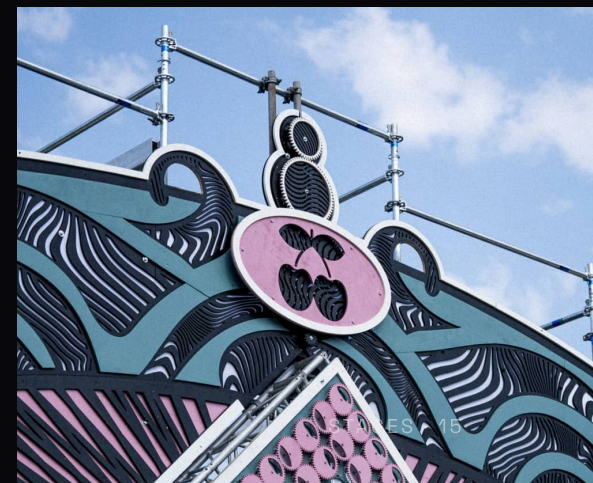

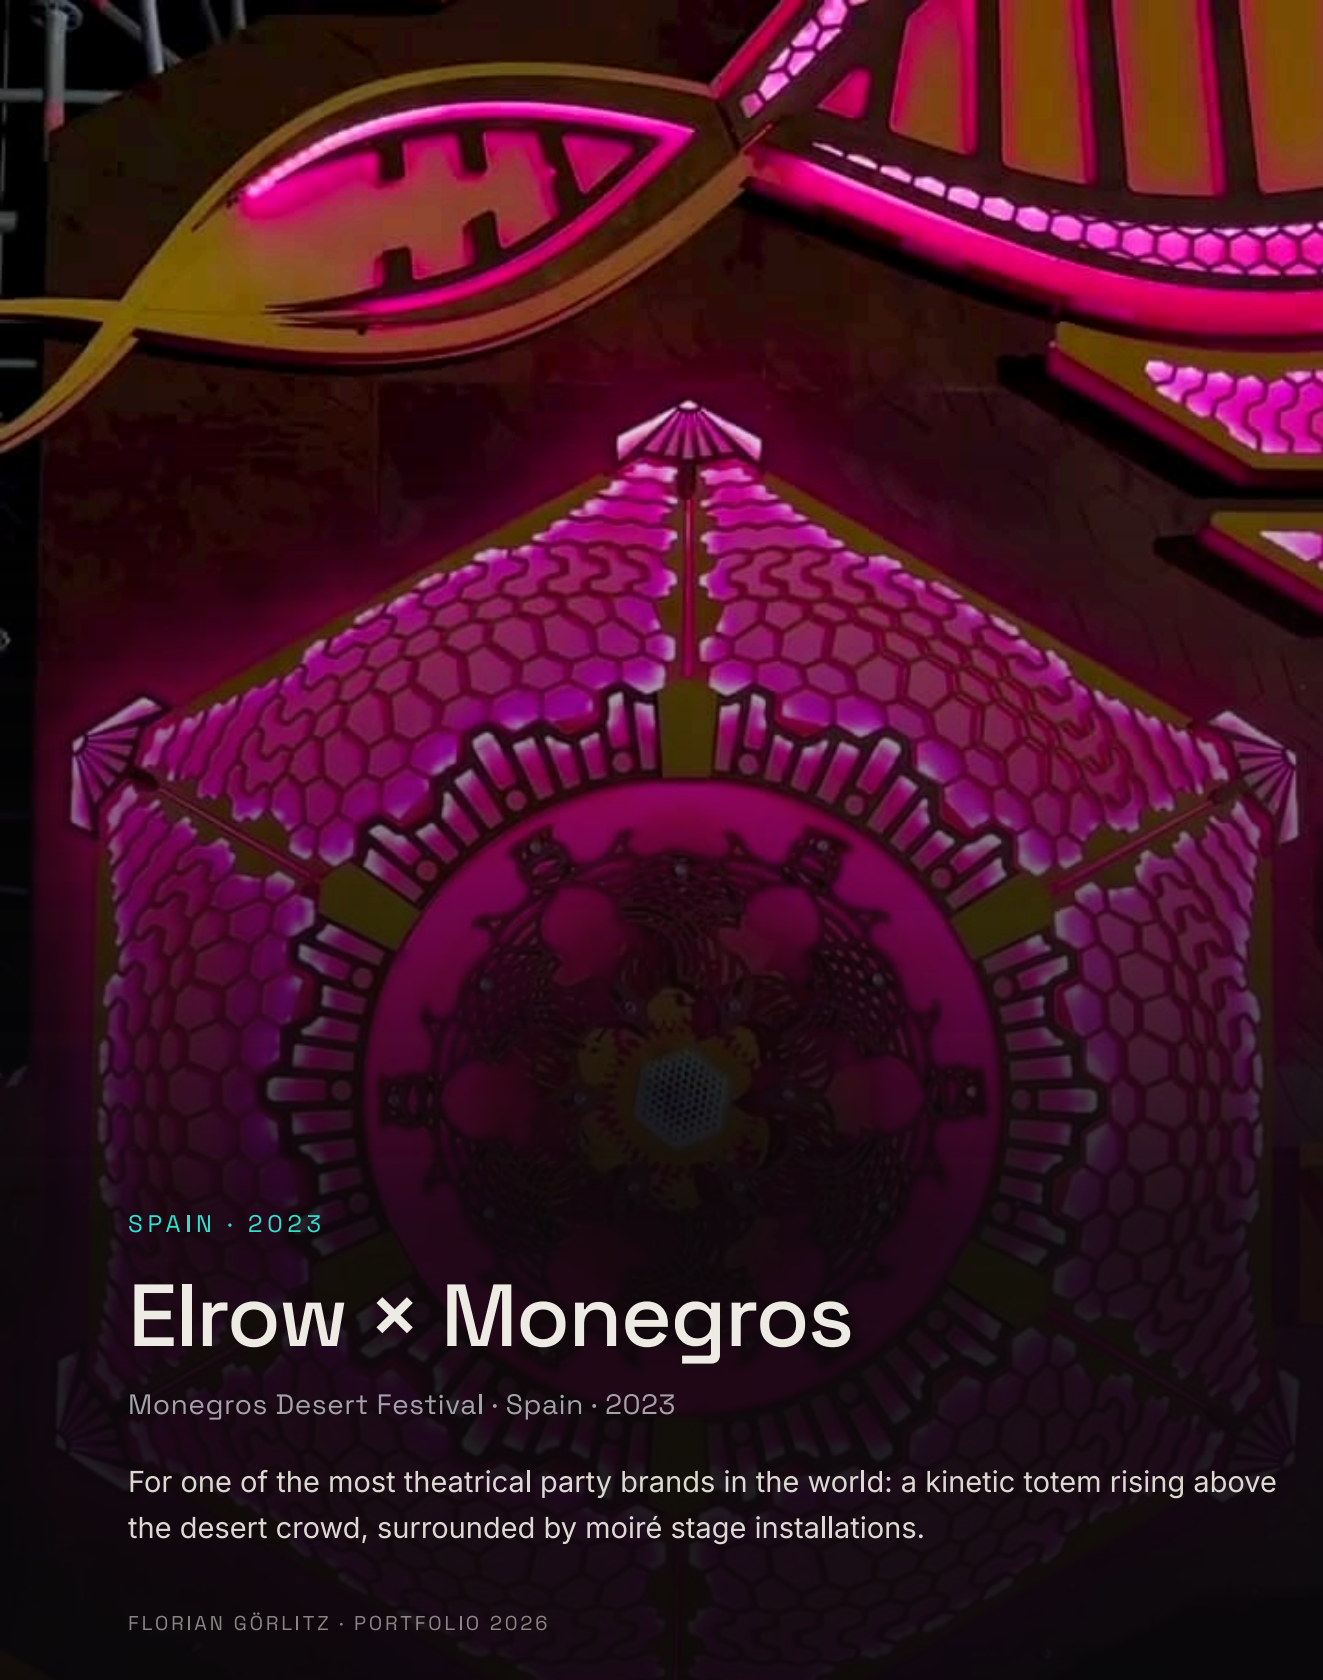

IBIZA · 2023

Pacha Ibiza

Ibiza, Spain

A kinetic stage for the legendary Pacha brand – hypnotic wave panels, gear mechanics, a giant moving eye and the iconic cherries in one moving illusion.

SPAIN · 2023

Elrow × Monegros

Monegros Desert Festival · Spain · 2023

For one of the most theatrical party brands in the world: a kinetic totem rising above the desert crowd, surrounded by moiré stage installations.

Delirium Festival

Spain

Rotating, laser-cut mandalas – warm wood by day, a pulsing light machine by night.
Every disc is cut from straight lines; in motion they spiral and breathe with the music.

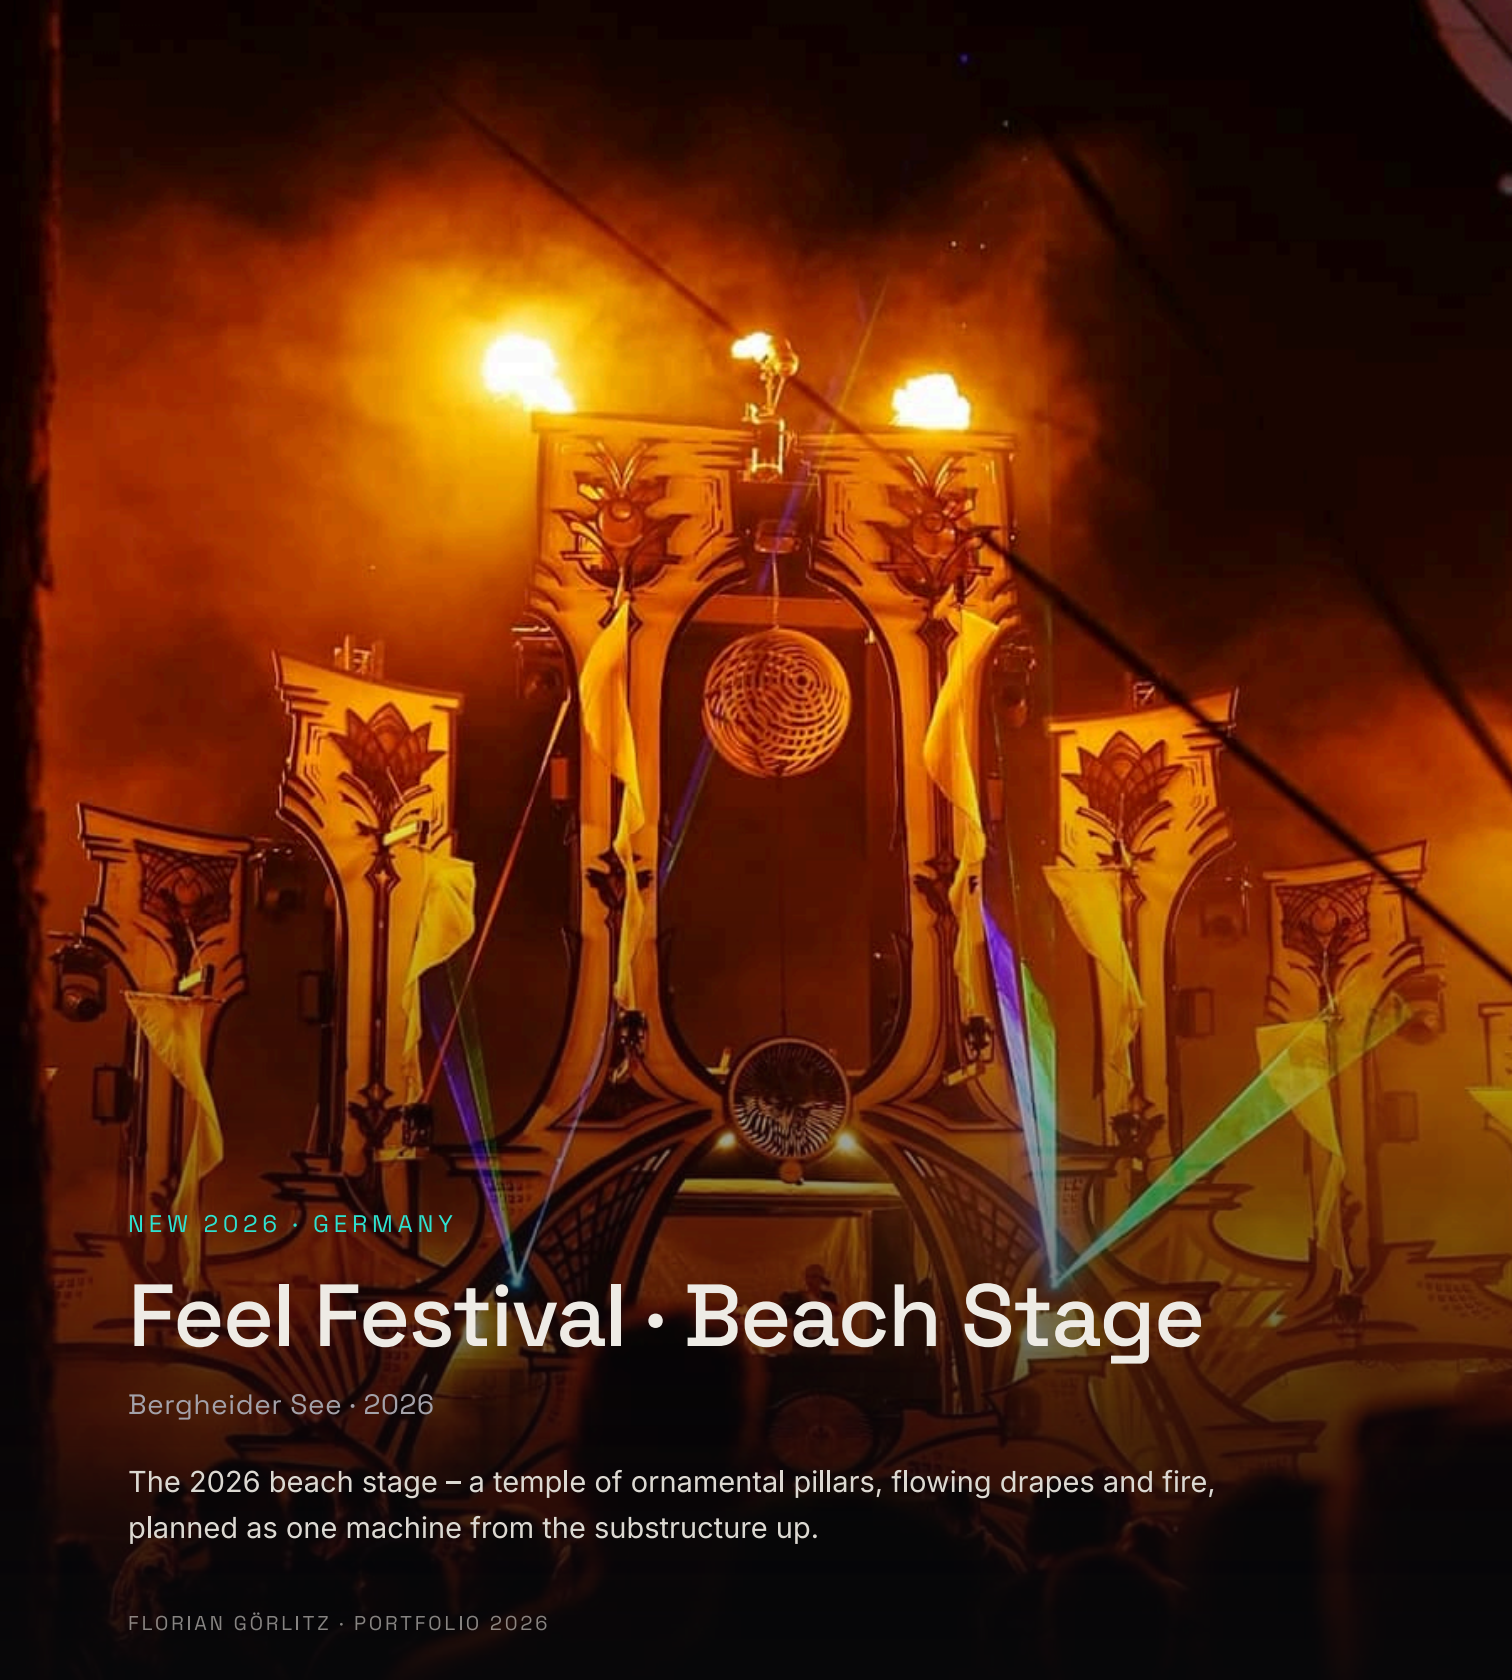

2024 · GERMANY

Feel Festival · Beach Stage

Bergheider See · 2024

Tentacles reaching into the night, crowned by fire, around a glowing eye of laser light – the modular kit rebuilt into a new creature.

NEW 2026 · GERMANY

Feel Festival · Beach Stage

Bergheider See · 2026

The 2026 beach stage – a temple of ornamental pillars, flowing drapes and fire, planned as one machine from the substructure up.
